Description

CATANA 431 - SV ALTAIR HIGHLIGHTS

Owner's Version

Always privately owned and never chartered

Meticulously maintained. Huge upgrade from 2022 to 2025 including new engines, sail drives, electronics, safety items, windlass, lithium batteries, 1600w solar power, watermaker, dinghy and outboard, etc... (read on for full description).

Bluewater Ready and Equipped for independence at sea.

Comfort includes Air conditioning, watermaker, 3000W inverter, large cold storage capacity, dinghy davits, full cockpit enclosure and more.

Performance-oriented cruising catamaran designed for serious offshore voyages with high bridgedeck clearance, 3 watertight bulkheads, and designed to stay afloat even if fully flooded.

Full video tour available available on our Nautilus Yacht Management Youtube Channel

Owner's on board and able to assist with inspections, sea trial and handover to a new owner.

Owners will deliver Altair to Australia or NZ for her new owners as part of a purchase agreement if required.

Nautilus Yacht Managementis proud to present to market this exceptionally well maintained and upgraded example of the celebratedCatana 431. Designed by Christophe Barreau and built by Chantier Catana (FR),SV Altairis hull #08.

SV Altairis a rarely availableCatana 431owner's version. Designed as an ocean-voyaging performance catamaran, thisCatana 431combines exceptional quality of built and intelligent features to provide you with safety and speed in all wind conditions, as well as un-matched comfort for a performance catamaran of this size.

SV Altairhas been maintained and upgraded to the highest standard and is loaded with high-end upgrades, offshore-ready, and is located in Fiji, one of the world’s top cruising grounds which permits a tax free sale for non-resident, hence a very popular location for world cruisers coming to the end of their sailing sabbatical.

SV Altairis an ideal cruising catamaran for a couple or family who appreciate the second-to-none intelligent design, quality of build and outstanding performance of aCatana. She comes with a huge inventory and you just need to step aboard and begin your journey. Everything from spare parts, to tools, galley equipment, water toys, full USCG standard safety items, bedding, dinghy and outboard is included.

SV Altair'sowners are on board and continue to care for her daily. They will personally handover the boat to her new owners and spend time with them make sure they have time to familiarise themselves with Altair's features and systems. Brizo's remaining cruising period in Fiji is for another 2 years from August 2025, but her owners offer to deliver the boat to Australia or NZ as part of a purchase agreement if required.

More about the Catana 431:

This model is celebrated for blending performance and safety with comfort.
• All lines led to cockpit: Allow for safe & simple maneuvers.
• Asymmetrical hulls & tulip bows: reduce drag, optimize speed.
• PVC foam-cored construction: Reinforced with Twaron (Kevlar) fabric, vinylester resin, and carbon fibre for lightweight, strong, and rigid hulls.
• High bridgedeck clearance: smooth motion at sea
• Centralized weight distribution: improved stability and comfort.
• Retractable daggerboards: superior upwind performance.
• Watertight bulkheads: added safety.
• Unsinkable construction: Engineered to stay afloat even if fully flooded.

The open cockpit-salon layout with large windows create a bright, airy atmosphere, ideal for offshore cruising. Its innovative running rigging allows all manoeuvres to be safely managed from the cockpit, enabling effortless single-handed sailing when desired. *elements as described in the Catana brochure

For more information and to organise a private video tour or in person inspection forSV Altairplease get in touch! We will endeavour to answer all your questions in as many details as needed.

Nautilus Yacht Managementhas assisted hundreds of cruisers, new or experienced, to this magical lifestyle make their dreams come true with ease and with the sense that they come first. We purposefully keep our company stocks limited to have more time to devote to both buyers and sellers.

For additional information, such as import, delivery, choice of registrations, insurance etc. Please don't hesitate to ask. Our team is here to help answer your questions, help you at every step pre and post purchase, and provides you with a full brokerage service including escrow accounts and clear title exchange documentation.

A Word From The Owners:

"We purchased this boat in Panama in 2022 and immediately started upgrading this solid foundation of a boat. All electronics, watermaker, trampoline, and dinghy have all been upgraded to the newest equipment. We spent two years cruising the Caribbean and then headed back to Panama where we crossed the Panama Canal in early 2025 and crossed to French Polynesia, Samoa and eventually Fiji. This boat was never chartered and I’m the 2nd owner. Previously the boat was used in Panama for only a few months a year and had a full-time employee cleaning and taking care of the boat during off season. This boat is fast with a solid hull. You will be sailing when all others are motoring as she excels in light air. Each model of this boat was made to owner specifications with certain options, this one most notably has skegs in front of sail drives to protect sail drives and rudders. We have been sailing with two children, now teenagers that are now preparing for their college years. "

SPECIFICATIONS:
• HIN: CAT43108E999
• Registration No, USCG No. 1329270 (USA)
• US Taxes Paid (Receipt provided)
• 13.10 meters/43 feet

Disclaimer

Website: https://www.cruisingyachtsco.com/
Level 3 304-318 Kingsway Caringbah NSW 2229

- Beam: 7.30 meters/24 feet
- Height: 2.20 meters/7 feet
- Length in water: 12.80 meters/42 feet
- Displacement: 8,000kg
- Horizontal loaded displacement: 12,000 kg
- Draft: 1.25 meters with the small Sail Drive protection keels • Draft with daggerboards: 2.20 meters
- Mast height: 17.60 meters (from deck)
- Total mast lift: 19.50 meters (64 feet)
- Mainsail and genoa 120 square meters
- Complete canopy with Spi 205 square meters
- Gennaker 92 square meters
- Bow sprit with furler for Gennaker

BUILDING INFORMATION:

The two outer hull molds and one inner hull/bridgedeck moldare vacuum bagged using vinylester resin, cored with PVC closed cell foam with unidirectional cloth for outer laminate & Twaron aramid cloth for inner laminate.

The separately molded daggerboard trunks are laminated to be considerably stronger than the daggerboards. All 21 structural bulkheads are cored with Nidacore honeycomb with carbon fiber on both sides.

The deck/coachroofis a one-piece mold, vacuum-bagged using vinylester resin, cored with Nidacore honeycomb with unidirectional cloth for outer laminate & Twaron aramid cloth for inner laminate, and molded diamond pattern non-skid decks.

The deck to hull joint is bonded by fiberglass creating a seamless waterproof monolithic structure.
