---

Nautilus Yacht Management is proud to offer‘Zéphyr,’to the market.

The Bahia 46is one of Fountaine Pajot’s most legendary catamarans ever produced and well known by serious sailors for its passage making abilities.

The Bahia 46has earned her reputation through her robust construction, sea kindliness, sailing capabilities and is a great performer. She has a generous sail plan and, with her close cell foam core upper hull sections and decks, she is light for a cruising catamaran of her size at 9700kg.

Witha high bridge deckclearance, low centre of gravity and aerodynamic profile, sea keeping is excellent and provides a fast, comfortable ride even in rough sea states. On passage, 200 nm days are easily possible with a high level of comfort aboard.

Fin keelsprovide good windward performance while keeping the draft at only 1.3m. It is safe and easy to dry the boat with a moderate tide for inspection or underwater maintenance.

The helmis centrally located in the cockpit, a position that enables safe watch keeping, efficient communication between the skipper and crew, and an excellent view of the sails.

The massive cockpitoffers ample space for sailing or entertaining and provides a large safe enclosed area while underway.

The decksare open, spacious and free of clutter, making it an ideal area for children to play or to accommodate lots of guests on a day sail.

Wide stepsat the transoms make great platforms for swimming, fishing or launching kitesurfing gear.

The large exterior tablecan seat 10 people and can be folded down to less than half the size to create more space in the cockpit when needed. The huge wet locker under the cockpit floor provides ample storage for jerry cans, extra ropes, water sports gear or any other outside equipment.

The visibilityfrom inside the boat is outstanding, allowing a short-handed crew to keep an effective watch while

Disclaimer
Our company offers the details of this vessel in good faith but cannot guarantee or warrant the accuracy of this information nor warrant the condition of the vessel. A buyer should instruct his agents and/or surveyors to investigate such details buyer desires validated. This vessel is offered subject to prior sale, price change or withdrawal without notice.

attending to navigation, cooking or other indoor tasks.The saloonis well laid out with a huge dining table that can seat 10 people. With kids on board, the owners have also found this to be a great set up for schooling, projects and family games nights. Adjacent is thelarge galleywith good ventilation, a view to the horizon, and its own designated floorspace so the cook can prepare meals in comfort and peace without interference from other crew members moving around inside the boat. There is generous counter and storage space, a massive dual fridge / freezer, double sinks with both freshwater and saltwater taps, a stovetop and oven.

Accommodationis spacious and comfortable with4 large ensuite double cabinsand two additional single berths forward with access from the deck inside the forward guest cabin. Originally intended for crew, one has a mattress, but both are currently used for storage.

Midshipin each hull was designed as storage cabinets instead of the single berth sometimes on this model. The storage layout was factory-installed.

To enhance comfort and independencewhile cruising, the boat is equipped with an EchoTec watermaker which delivers 145L of fresh water per hour, a washing machine / drier, Starlink, and for entertainment 2 X 24” smart TV, one in the master cabin and one in the salon.

Zephyrcomes fully equipped, with everything you need on board to sail away today, including tools, lots of spares, water toys and a brandnew Zodiac 360 RIB with a 18HP outboardpowerful enough for water-skiing.

This Bahia 46was entirely re-powered in 2014, with reliable Volvo-Penta 40HP each. The engines have been religiously maintained and were recently serviced. The sail drives seals (top and bottom) were replaced in 2024, as well as the diaphragms.

The propulsionis enhanced by a set of 3-blades Kiwi Feather Props feathering propellers (new 2017). The blades are composite to minimise corrosion, weight and shock, and each blade can be individually replaced in case of damage. The new propellors have improved sailing performance by adding up to a knot of speed! And when the wind disappears, the new engines are powerful enough to move this catamaran along at 8 knots.

The standing riggingwas just replaced in July 2024, including new chainplates and a new bowsprit (seagull striker) and a new gooseneck for the boom.The running riggingwas replaced in 2023.

Zephirhas an ample and intelligent power supply, with a total solar power of 1175W, including a brand new 450W solar panel just installed, MPPT charge controller and a B2B charger connected to both alternator and solar to speed up and maximise charge. The boat is set up with 220V AC and 12V DC, with shore power connected to a powerful Victron Phoenix Smart IP43 Charger.

In house powerfor all your AC needs is supplied via a powerful 3000 W inverter.

A full in and out water surveywas just completed by an independent marine surveyor who flew to Fiji from Sydney, Australia and inspected Zephyr from top to toe prior to going to market, giving the boat a clean bill of health (report available upon inquiry).

Located in Fiji,an ideal location to begin cruising amongst a diverse and friendly international cruising community,

Zephyris available now and with everything on board to simply step on and begin your own sabbatical. Fiji offers excellent marine facilities, and with 330 islands within a few miles distance and easy cruising, it has long been a

Mecca for family cruising. Located 3 days sail to Vanuatu or New Caledonia, and continue island hoping to Asia, or within a few more days to Australia or New Zealand, the possibilities are endless, even for families new to cruising.

For a bit of info aboutNautilus Yacht Management Pty Ltd,we are a boutique-style brokerage with head office in Australia and servicing the South Pacific and Asia. We carefully curate each of our listings and are devoted to the cruising community. Ex-cruisers ourselves we just strive to help others begin their journey on the ocean.

If you thinkZephyrmight be just what you have been looking for, get in touch! Our team can organise a private video viewing with their owners, as well as have all the time in the world to answer your questions regarding the traveling to Fiji to meet with the owners, the purchase process , ect. We also provide free-of-charge assistance with shipping, delivery, insurance, registration etc, no matter where in the world you are.

NYMhas a reputation to present to the market only quality cruising yachts in beautiful, turn-key condition, but our real trademark is to work as a team with you and the sellers to ensure a seamless, transparent and joyful experience.

A Word From The Owners:

"Bula!

Welcome to our beloved Bahía 46 - Zéphyr!

My name is Johanna and my husband Lutz and I have been cruising the South Pacific waters in the past three years with our two kids.

Our two boys, Tom and Levi, are now 12 and 6 years old. The little one just turned 6 and this means – in our home country Germany – Tom will have to start school this year in August.

We have been home schooling the big boy, but two at the same time – that’s too much for us as non-teachers and working parents :)

That’s why we are giving her away to a good new home!

We bought Zéphyr in Papeete, in French Polynesia, from a French family who had sailed across the world on her for 8 years. We decided on this Bahía since she offers a lot of space for all our diving kit, surf boards, an ocean kayak and even bicycles. The main reason why we chose her, though, is her outstanding sailing performance! She sails fantastically well even though, she is a catamaran. Before we moved onto Zéphyr we were sailing a cruiser/racer monohull (a beautiful Dehler) because we really enjoy sailing. On our passages from French Polynesia to Tonga and on to Fiji this catamaran now outperformed our expectations!

We especially bought her in French Polynesia, because we had sailed the Tuamotus on our first half-circumnavigation before – our all time favourite diving spot in the world! We have published a book on our first 4 years of cruising with kids (Delius Klasing ‚Work sail balance‘).So we spent months diving in the Tuamotus, and then when time was up (import tax!) we moved on to Tonga and finally Fiji. We are impressed by the welcoming Fijian culture and the endless cruising opportunities here.

Zéphyr was not only our home but also our office at times. We installed Starlink which is an absolute game changer for the working nomads. I am a self-employed architect and can work remotly at times. Lutz works in the IT consulting business and can easily work remotely. Most of the time it was best not to mention his whereabouts

during his video calls, though – so he changed his background to snowy mountains :)

We are now at Vuda Marina, getting Zéphyr prepared for her new ownwers – our entire family is sorry to see her go. We will continue our sailing adventures once the home schooling part will ease up a bit! . " Johanna, Lutz, Levi and Tom. SY Zéphyr. Fiji, July 2024.

GENERAL INFORMATION:
- Beam 7,4 m
- Draft 1,3 m
- Displacement 9,7 tonnes
- Material Fibreglass
- Keel Mini keel (new 2022)
- Designer Joubert / Nivelt
- Builder Fountaine Pajot
- Year Built 2006
- Year Launched2007

IDENTIFICATION:
- HIN Number FR FPA11170K607
- Registration number 83294-A
- Registration port Hanover, Germany

TANKAGE:
- Water 800L one tank (standard, not sure what material, cannot access easily)
- Fuel 400L one steel tank plus four new twenty litre jerry cans

• Anchor winch full service 2023 with two new remote controls

ADDITIONAL EXTRA (SOLD SEPARATELY):
• Bauer Junior II diving compressor new in 2022

DEFICIENCIES:
• Fenders are old and a little stained, might want to replace. But they are full and not leaking.
• Toilet bases have turned yellowish over the years. Just a cosmetic point. Inside toilet of owner's head slightly stained (cannot get it clean).
• The hulls and the deck gelcoat is a little worn. Owners have a quote from Revmarine for painting the hulls and the deck (24.000Fiji Dollars) which seems very reasonable.
• Life raft is due for inspection.
